NEW FIESTA REVIEWS

This stylish nature is echoed in the cabin, which is built using the tactile materials and craftsmanship befitting a car twice the price. Making comparisons to Audi is high praise for a £9,000 Ford, but the Fiesta has the kind of flair most German manufacturers cannot match. **AUTOTRADER**

In recent years Ford has gained a reputation for creating cars with top drawer driving dynamics – and the Fiesta is no exception. The all-new electrically assisted steering is well weighted and direct, while the chassis demonstrates excellent poise and agility. It's comfortable too, the supple ride easily coping with bumpy and pot holed road surfaces. The Zetec S adds lowered sports suspension for an even sharper drive. **AUTOCAR**
